

Proposed Settlement With IPL Results In NO INCREASE In Monthly Fixed Charge For Most Customers!

In December 2017, IPL filed a new base rate case (Cause No. 45029) before the Indiana Utility Regulatory Commission (IURC), despite the fact that they raised base rates less than two years ago. **IPL asked the IURC for permission to raise their annual operating revenues by \$95 million**, and significantly increase your monthly fixed charge (the amount you pay regardless of how much energy you use). Increased fixed charges have a disproportionate impact on low and fixed income households (seniors, disabled, and other vulnerable populations) AND penalize households that are conserving energy and making their homes more energy efficient.

Specifically, IPL wanted to:

- Increase the monthly fixed charge on most customers to \$27 per month, a 59% increase. This would give IPL the highest monthly fixed charge of any investor-owned utility in Indiana, by far.
- Low usage customers (primarily low and fixed income households, most notably senior citizens) who use 325 kilowatt hours or less per month will see their monthly fixed cost increase by 42% to \$16!
- Increase per kilowatt hour charges for the first 500 kWh used each month by 15% and every kWh used thereafter by 21%.
- Increase per kilowatt hour charges (over 1,000 kWh) for households that are electrically heated or have electric hot water heaters by 25%.

This would have meant the residential base rate of \$97.42 (for a household using 1,000 kWh per month) approved in IPL's last base rate case would increase to \$121.85 before taxes, trackers, and other fees - **a 25% INCREASE in base rates!**

Proposed Settlement now awaiting approval by the IURC:

On July 19, 2018, CAC and our partner organizations joined a settlement reached by all parties in IPL base rate case. The agreement still needs to be approved by the IURC before it becomes final.

The settlement will leave the monthly fixed charge at \$17.00 for most residential customers, well below what the company was seeking. For customers whose monthly usage is less than 325 kWh, the existing monthly fixed charge of \$11.25 will be slightly increased to \$12.50, if approved by the IURC.

Several terms of the settlement also include pilot programs to begin helping IPL low-income customers who struggle to pay their monthly electric bills, including \$150,000 to weatherize homes and make them more efficient.

Tell the OUCC and the IURC Regulators:

- To oppose IPL's request to increase fixed monthly costs and charge you more for using less.
- To fight for residential customers to ensure that monthly bills are affordable, just, and reasonable.
- To support IPL's proposed low-income pilot programs to assist households experiencing difficulties paying their bills.

IPL Base Rates Comparison

for the average customer using 1,000 kilowatt hours of electricity per month

	Current Bill		Proposed Bill	
	Charges & Rates	Total Bill	Charges & Rates	Total Bill
Monthly Fixed Charge	\$17.00	\$17.00	\$27.00	\$27.00
0-500 kWh rate	\$0.091	\$45.44	\$0.105	\$52.66
Each kWh over 500	\$0.070	\$34.98	\$0.084	\$42.19
Total:		\$97.42	Total:	\$121.85

This is the core of your electric bill - what you are charged for fixed costs and usage fees. This part of your IPL bill makes up about 85% of your current total IPL bill.

Trackers: the other 15% of your IPL bill not included in "base rates"

These trackers are currently included in your IPL bill, added to the average bill you see above. IPL wants to include most of the amounts they're currently collecting through trackers into "base rates" going forward. Then they want to file for new amounts to be collected through these trackers shortly after the IURC approves the new base rates. How much the trackers will be on your monthly bill is unknown to everyone but IPL.

	Current Trackers		Proposed Trackers	
	Charges & Rates	Total Bill	Charges & Rates	Total Bill
Rider No. 6 - Fuel Adjustment Clause ("FAC" - filed quarterly)	\$0.002504	\$2.50	???	???
Rider No. 20 - Environmental Compliance Cost Recovery Adjustment ("ECCRA" - filed semi-annually)	\$0.009110	\$9.11	???	???
Rider No. 22 - Demand Side Management Adjustment ("DSMA" - filed semi-annually)	\$0.003803	\$3.80	???	???
Proposed Rider No. 24 - Capacity Cost Recovery Adjustment ("CAP" - would be subject to annual adjustments in a future docket)	\$0.000562	\$0.56	???	???
Proposed Rider No. 25 - Off-System Sales Margin Sharing ("OSS" - would be subject to annual adjustments in a future docket)	\$0.000235	\$0.24	???	???
Proposed Rider No. 26 - Regional Transmission Organization Adjustment ("RTO" - would be subject to annual adjustments in a future docket)	\$0.001638	\$1.64	???	???
Total trackers on current bills:		\$17.85		???
Total bill with base rates and trackers:		\$115.27		\$121.85 + ???

(Tracker numbers updated on 3/19/18.)

Tell the IURC and the OUCC to stop the shakedown!

No more rate hikes for IPL!!
